2016 Boatbuilding Class Information

No Experience is necessary to be part of the boatbuilding class. It's perfect for anyone who is thinking about building a boat or for someone who just likes to work with wood and epoxy. Visit www.sbcса.org/boatbuilding.shtml for more info.

2016 Projects:

- Finish the construction of the two Wood Duck Kayaks including painting, varnishing, and installing the seats and foot rests. The two kayaks will be raffled as a pair in 2016.
- Continue work on the Jericho Bay Lobster Skiff, a 16' runabout/fishing boat. After finishing fairing and priming the hull exterior, it will be pulled from the molds and the class will start working on the hull interior. Fairing, glassing, and fabricating seats, the breasthook, and a center console are just part of the list of things to be done.

- A new project, still to be chosen as this newsletter goes to press, will be started when the kayaks have been completed. No doubt it will be another interesting and challenging project.
